Developed and maintained web application using Nextjs ,Nodejs and MongoDB , resulting in increased user engagement and improved functionality. Collaborated with cross-functional teams to identify and resolve technical issues, ensuring seamless integration of back-end and front-end systems.

Full Stack Web Developer
Masai School (Internship/Training)

07/2022 – 06/2023 | Bangalore, India

I've gained valuable experience developing multiple MERN stack projects. From creating robust APIs with Express.js and Node.js to building dynamic user interfaces with React, these projects have enhanced my skills in end-to-end web development. Collaborating with cross-functional teams, I've learned to adapt quickly and deliver high-quality solutions

Projects

1.Healthistic (HealthKart.com Clone)
Github ⬈ Deployed Link ⬈
A health and fitness e-commerce website where you can buy health and fitness supplements.

Features:
- Full Fledged Health e-Commerce with Admin Control
- Admin Page -Manage orders and Product (different for different admins)

Tech Stack: React.js | Chakra-UI | MongoDB | Express | Bcrypt | JWT | Nodejs

A collaborative project built by a team of 4 members executed in 5 days.

See more.. ⬈
MERN Stack game with real-time chat and many other projects....
